

"Zoé" is the Greek word for overflowing and abundant life in Christ found in John 10:10. Jesus said, "I have come that they might have life and life to the full."

We do not, and should not judge our success by numbers, but by obedience. God is the one that makes things grow. I just want to know where to plant and water. The problem with looking at numbers is that they can be manipulated, misleading, used to compare to others, or used as a weapon, rather than used for information.

Our heart is to present this issue to you for information; numbers, so that you may know more. If you have an idea or want to get involved in one of these areas let us know. We are stronger together and all the good things you see are because of God and your faithfulness. These numbers represent an average week and month.

There are others that produce more and less than us, but that is not the point. It is to follow His direction and obey, out of a love relationship with God, who makes all things grow. If it is 1 or 1000, He gets the credit and glory!
